Ancaster Glen II. *All* this and more.

With the launch of Ancaster Glen, Losani Homes brought absolutely everything together in one masterfully planned neighbourhood. Now in this prestigious location, we are proud to present the much-anticipated second phase of the community, with an exclusive collection of executive attached semis minutes from all of Ancaster's many amenities and attractions.

If you want it *all* for your family, you'll find it here at Ancaster Glen. All the quality. All the comfort. All the convenience. All the things that you love most in life.

It's *all* about location.

With the building of homes in the premier phase of Ancaster Glen, the community quickly established itself and the appeal of its location became abundantly clear.

Now the attached semis in Phase II are perfectly positioned within the master plan, just a short walk from the community's conservation lands and ponds, and a green corridor with walking trails leading to the community's own park. It's the ideal setting, with Mother Nature as your next-door neighbour.

Choosing to build a brand new home that has your personal stamp on it is a major decision and a big undertaking. A home after all is amongst the largest investments many will make in their lifetimes, and consumers need to feel comfortable with those whom they are trusting to deliver.

Losani Homes, a leader in the industry, is committed to ensuring you have a rewarding experience from the moment your experience begins until the moment you proudly take your keys. Steeped in a tradition of integrity and excellence, Losani Homes opened its doors as a builder in 1976. Founded by John Losani and his son Lino Losani, the company has been long renowned for its award-winning designs, meticulous workmanship and exceptional customer service. Younger son, Fred Losani, joined the team in 1985.

Widely recognized as an industry leader, Losani Homes has never wavered from its original traditional values. Despite steady growth of this family owned and operated company, the basic fundamental principles that were originally laid out by company founder John Losani are still very much a part of how the company operates today. Those are, and have always been, finding innovative ways to surpass customers' expectations and provide the most extraordinary home building experience possible.

This esteemed company has been favoured with more awards in the last decade than any other builder in the Golden Horseshoe. They include, but are not limited to, many Hamilton Halton Home Builders' Association awards, such as the prestigious top builder award, best single family home (2,800 sq.ft. and over) and best exterior on a home (2,500 sq.ft. and over), as well as several Community of the Year awards.

Losani Homes also recently was bestowed the 2014 Hamilton Consumer Choice award for top home builder for the third year in a row, while also achieving Platinum status in 2013 after being named one of "Canada's 50 Best Managed Companies" for a remarkable seven consecutive years.
